GLOBAL MECHANICAL TURNAROUND SERVICES

SETTING A NEW STANDARD IN TURNAROUNDS

Combining the experience of the past with the innovation of today and tomorrow to create the best solution for your mechanical needs.

Global Mechanical Turnaround Services' (GMTS) project team has been trusted for decades in critical path project work for FCC, coker, crude, hydrocracker and power plant units.

We are exceedingly competent in project management, cost controls, scheduling and planning, engineering and mechanical critical path execution. Whether it's an upgrade, revamp, maintenance turnaround or shutdown—you can trust in GMTS. Our experience, innovation and commitment to safety are what set us apart.

FCCUs

- Vessel Modifications
- Heads Off
- Transfer Lines
- Cyclones
- Slide Valve Removal & Replacement
- Air Grids
- Expansion Joints
- Structure
- Drums

Cokers

- Drum Repair & Replacement
- Skirt Repair
- Structure
- Delta Valves

Crude

- Valves
- Heater Skin Repair
- Burners
- Exchangers
- Vacuum Columns
- Drums

General Mechanical

- Piping
- Valves
- Heater Skin Repair
- Steam Drum Repair
- Planning
- Scheduling
- Constructability

EXCEL MODULAR SCAFFOLD

LEADING THE WAY IN INDUSTRIAL SCAFFOLDING

The patented Excel Modular Scaffold System is the premier scaffolding system in the market, offering many benefits and advantages over other types of system scaffolding. Excel has developed a strong following of loyal customers in the nuclear, petrochemical and chemical plant industries.

THE EXCEL ADVANTAGE

- Safest and quickest scaffold system
- Enhanced structural integrity
- Positive-locking/no-tools technology
- Fewer modifications
- User-friendly components
- Most scaffold accessories on the market
- Excel leg loads support 9,000 lbs. per leg
- Greatest number of vertical attachments (cups every 5.75")
- Designed for qualified anchorage point tie-off for craftspersons
- Proprietary management software — Xlerator
- Standard components comply with handrail regulations for both OSHA and Cal/OSHA
- Reduced schedule impact
- Custom design
- Modular racking system
- Excel Modular Scaffold meets ISO 9001 requirements

Let us put our patents to work for you.
We're not number one—you are!®

DELTAK ENVIRONMENTAL COATINGS

PROTECT YOUR BOTTOM LINE

SPECIALTY SURFACE PREPARATION

- Steel shot and mineral slag abrasive cleaning
- Vacuum blasting
- High-pressure and ultra-high-pressure washing
- Vacuum collection power tooling
- Accustripping with sodium bicarbonate
- Lead abatement
- Chemical stripping

FLOOR COATING SYSTEMS

- 3-D leak detection systems for tank bottoms
- Chemical resistant troweled systems
- Abrasion resistant systems
- Broadcast systems
- Self-leveling systems
- Thin-film systems

SPECIALTY COATING APPLICATIONS

- Application of chemical and acid resistant coatings and plural component systems
- Thermal spray aluminum
- Crack injection and repair of concrete
- Fiber reinforced epoxy systems
- Chopped glass applications
- Specialty tank and vessel linings
- Cementitious and intumescent fireproofing

SUPPORT SERVICES

- Identification systems
- Coating inspection (NACE Certified Level III Staff)
- Planned maintenance programs
